DELTA DENTAL
2013 FALL DENTAL SEMINARS

Sponsored in conjunction with the University of Michigan (UM) School of Dentistry

Medical Considerations for the Dental Patient/Medical Emergencies in the Dental Office
Sharon (Ron) Aronovich, DMD, FRCD(C);
Paul Kloostra, DDS, MD; and
Christos A. Skouteris, DMD, PhD
September 27, 2013
Treetops Resort
Gaylord, Michigan

Prosthodontics Today—Combining New Technologies and Old Techniques
Michael Razzoog, DDS, MS, MPH
October 25, 2013
Sheraton Detroit/Novi Hotel
Novi, Michigan

DELTA DENTAL FOUNDATION
An affiliate of Delta Dental of Michigan, Ohio, Indiana, and North Carolina

The Delta Dental Foundation is a nonprofit corporation established by Delta Dental of Michigan to fund projects to advance and promote oral health.
Friday, September 27, 2013
8:00 a.m. to 3:00 p.m.

Course: Medical Considerations for the Dental Patient/Medical Emergencies in the Dental Office (Course A156-14 Delta Gaylord)

Speakers: Sharon (Ron) Aronovich, DMD, FRCD(C); Paul Kloostra, DDS, MD; and Christos A. Skouteris, DMD, PhD

Location: Treetops Resort
3962 Wilkinson Road
Gaylord, MI 49735

Hotel reservations: Call (855) 261-8764, Option 2

Group rate code: Delta Dental Foundation

Course Fee: $65 nonrefundable

Friday, October 25, 2013
8:00 a.m. to 3:00 p.m.

Course: Prosthodontics Today—Combining New Technologies and Old Techniques (Course P157-14 Delta Novi)

Speaker: Michael E. Razzoog, DDS, MS, MPH

Location: Sheraton Detroit/Novi Hotel
21111 Haggerty Road
Novi, MI 48375

Hotel reservations: Call (248) 349-4000

Course Fee: $65 nonrefundable

HOTEL REGISTRATION
Please note: You must make your own hotel arrangements. Neither the Delta Dental Foundation nor the University of Michigan is responsible for your accommodations.

COURSE CREDIT
Six hours of continuing dental education credit are available for each all-day seminar. Each participant must personally check in at the beginning of each course to pick up his/her course packet. The University of Michigan is an ADA Continuing Education Recognition Program (CERP) recognized provider.

Attendance is open to dentists and their allied dental personnel. Early registration is recommended.
HOW TO REGISTER
Online: www.dent.umich.edu/cde
To view course details, scroll down to:

- A156-14 Delta Gaylord or
- A157-14 Delta Novi

If you do not receive a confirmation email please contact the University of Michigan Office of Continuing Dental Education.

Please submit separate online registration and payment for each person attending.

For assistance, contact the University of Michigan School of Dentistry’s Office of Continuing Dental Education at (734) 763-5070 or (734) 763-5171.

CANCELLATION POLICY
A nonrefundable $65 registration fee is required for each attendee.

PROGRAM CHECK-IN TIMES
The seminars begin at 8:00 a.m. with a lunch break at noon. Lunch is NOT provided. Check-in begins at 7:30 a.m. Additional information will be included in the email confirmation.

The University of Michigan is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Seminar topics are presented in the interest of furthering dental education. Delta Dental is committed to the optimal dental health of its subscribers and, as such, endeavors to include among its covered benefits those services whose efficacy has been documented. However, a concern for cost effectiveness precludes coverage for all dental services in all of its programs. Therefore, it should not be construed that all procedures discussed and/or demonstrated in these seminars are covered under current Delta Dental program contracts.
Medical Considerations for the Dental Patient/Medical Emergencies in the Dental Office
Sharon (Ron) Aronovich, DMD, FRCD(C); Paul Kloostra, DDS, MD; and Christos A. Skouteris, DMD, PhD

ABOUT THE COURSE:
Morning Lecture: Medical Considerations for the Dental Patient
This lecture is devoted to reviewing the management of patients with cardiovascular system diseases, pulmonary and airway compromise, bleeding and clotting disorders, diabetes, liver disease including cirrhosis, kidney disease including hemodialysis, cancer, and cleft lip/palate deformities. In addition, management of patients taking bisphosphonates, those with a history of radiation therapy or use of chemotherapy will be reviewed.

Afternoon Lecture: Medical Emergencies in the Dental Office
Medical emergencies that will be discussed include:

- Cardiac arrest—updated ACLS protocol
- Myocardial infarction
- Opioid toxicity
- Local anesthetic toxicity
- Foreign body airway obstruction or aspiration
- Bronchospasm and laryngospasm
- Anaphylaxis
- Hyperventilation
- Vasovagal syncope
- Hypertension
- Arrhythmias
- Stroke
- Hypoglycemia
- Hypothermia
- Cerebral anoxia
- Seizure

ABOUT THE SPEAKERS:
Sharon (Ron) Aronovich, DMD, FRCD(C)
Dr. Aronovich is the assistant program director of the Oral and Maxillofacial Surgery Residency program. He obtained his dental degree from McGill University, residency training in Oral and Maxillofacial Surgery at the Hospital of Saint Raphael/Yale-New Haven Hospital, and a fellowship in Pediatric Craniofacial Surgery at the University of Pittsburgh Medical Center. His research interests include clinical outcomes in orthognathic surgery, wound healing, and outcomes in the surgical management of TMD disorders.

Paul Kloostra, DDS, MD
Dr. Kloostra is an assistant faculty at the UM Department of Oral and Maxillofacial Surgery. He obtained his dental degree, and recently completed his residency training in Oral and Maxillofacial Surgery at UM, and will be pursuing fellowship training in Cleft & Craniofacial Surgery in West Virginia.

Christos A. Skouteris, DMD, PhD
Dr. Christos A. Skouteris is a graduate of the University of Athens School of Dentistry. He completed a three-year training program in Oral Pathology at the same University that led to a PhD degree and a six-year residency in Oral and Maxillofacial Surgery at the University of Pittsburgh School of Medicine—Presbyterian University Hospital.

COURSE DETAILS:
Friday, September 27, 2013
Treetops Resort
3962 Wilkinson Road
Gaylord, MI 49735

Hotel reservations: Call (855) 261-8764, Option 2
Group rate code: Delta Dental Foundation
Course: 8:00 a.m. to 3:00 p.m.
CDE Credit: The University of Michigan designates this activity for 6 continuing education credits

Prosthodontics Today—Combining New Technologies and Old Techniques
Michael Razzoog, DDS, MS, MPH

ABOUT THE COURSE:
Morning Lecture: Prosthodontics Today—Combining New Technologies and Old Techniques
According to the Centers for Disease Control and Prevention (CDC) data, approximately one-third of Americans over the age of 65 are edentulous and that number is projected to increase over the next twenty years. While the implant-supported prostheses can solve many of the problems experienced by patients with complete dentures, a sound understanding of denture prosthodontics is needed to be successful. The morning will begin with principles of denture fabrication based upon a four appointment schedule and will continue with a discussion of implant options for edentulous patients, treatment planning and case selection, occlusion for complete and implant supported dentures, border molding, and overdenture versus fixed complete denture.

Afternoon Lecture: Pressure is mounting within the dental community for alternatives to traditional gold based porcelain-fused-to-metal restorations. The cost of metals, patient demand for esthetic restorations and the pressure on the laboratory industry are all contributing factors. The afternoon will focus on what we know about alternatives to traditional crown and bridge materials.

- Cobalt chrome
- Titanium
- Zirconia
- Alumina
- E-maxould

ABOUT THE SPEAKER:
Michael E. Razzoog, DDS, MS, MPH
Dr. Razzoog received his DDS, MS, and MPH, all from the UM and is currently a professor in the Department of Prosthodontics. He has served on numerous committees for organized dentistry, government organizations and specialty groups within the profession. He has authored over 100 journal articles and book chapters in areas of emerging technologies for prosthodontics care and has served as an editor for the International Workshop: Biocompatibility, Toxicity and Hypersensitivity to Alloy Systems Used in Dentistry, Black Dentistry in the 21st Century, and Quality Assurance and Cost Containment of Dental Health Care. In recent years, his research interest is with the prosthetic aspects of dental implant usage and ceramic CAD/CAM technologies.
