

# Invest in a Child's Future—at No Cost to You

College is expensive—Delta Dental is easing the burden of tuition through an exciting partnership with SAGE Scholars Tuition Rewards®.

College is one of the greatest investments in a student's future. Unfortunately, cost inhibits many from attending their dream school. But you can help a loved one with college tuition at no cost to you.

A partnership between SAGE Scholars Tuition Rewards and Delta Dental of Michigan, Ohio, and Indiana gives eligible dentists and their staff the opportunity to earn up to one year of PAID college tuition for their children, stepchildren, grandchildren, nieces or nephews, or godchildren.

This unique and free opportunity is only available to those participating in the Delta Dental PPO<sup>SM</sup> network.

**There are no catches; no gimmicks. Simply register yourself and office staff today to support a loved one's dreams.**

## Here's how it works:

Eligible dentists or staff members can earn Tuition Rewards points that represent a guaranteed minimum discount equivalent to \$1, with a maximum discount of up to one year's tuition spread equally over four years of undergraduate, full-time education, beginning with the freshman year, at one of SAGE's participating colleges: [bit.ly/SAGE-Colleges](http://bit.ly/SAGE-Colleges).

- Delta Dental PPO participating dentists earn 5,000 points **per year**, per contracted dentist (equivalent to a guaranteed minimum discount of \$5,000)
- Staff at participating Delta Dental PPO offices earn 3,000 points **per year**, per staff member (equivalent to a guaranteed minimum discount of \$3,000)

Points are not awarded retroactively; you start earning points when you complete your enrollment. Colleges reserve the right to include Tuition Rewards as part of other institutional awards. Rewards statements must be submitted to participating colleges from your account online at time of application.

**Register your office today—call 888-240-1414 to get started. Or visit our websites below for registration information and applicable limitations.**
